RIP & routing table basics using Packet Tracer - Part 1 ...
Re: packet tracer routing help. unless there is a specific requirement to use static routes, it is easier, and recommended, to use a routing protocol. Also, the serial interface on your ACME router had a wrong IP address. Please find attached the revised version, which now provides for end to end connectivity.

Solved: packet tracer routing help - Cisco Community
So I've got a 2960 switch in packet tracer and upgraded the IOS to 15.0(2)SE4. It now accepts the 'sdm prefer lanbase-routing' command, but after a reload I still can't issue the 'ip routing' command. The OCG indicated that the 2960 provides layer 3 routing. Is this a packet tracer thing or is the 2960 not in actual fact a layer 3 switch?

Solved: Static routing ISSUE(packet tracer) - Cisco Community
It seems that Packet Tracer is working correctly in this configuration, but that it has the limitation of not being able to disable the proxy-arp feature. Great Answer!!! It still seems odd to me that Vlan tagging on the trunk wouldn't prevent this, such that the sub-interface associated to vlan10 shouldn't be able to respond at all to an arp ...
