Cognitive Theism - Theistic Science

It's the naturalist's cognitive commitment to good science as the basis for belief that drives the denial of the soul, not a pre-existing commitment to a monistic ontology. Allegiance to science is prima facie rational, since it's intersubjectively established beliefs that

it also involves worship and ritual. These latter are ordinarily (but not always) absent from naturalism; naturalism, we could therefore say, performs the cognitive or doxastic function of a religion. For present purposes, therefore, we can promote it to the status of an honorary religion, or at any rate ...
