Orcad Layout For Windows Visual Cadd Tutorial

What I've found is that the window layout is so person, project, and company specific that there is no "magic" window layout. For instance, while I'm sure the layout you show works great for you, it's horrible for me. I need source control explorer as a main window for sure, and have little use for unit test and debugging windows.

What's your single-screen Visual Studio window layout ...

So, if you open and close windows, you won't necessarily see your default layout again until you pick it from the Apply Window Layout. As I said at the start, this is a a good reason to set up your "default" window layout right now: Having that default layout in place makes it easy to get back to it after you've played with Visual Studio's windows.

Controlling Your Visual Studio Default Window Layout ...

Throughout the development process we move windows in Visual Studio, delete them, and add them. Sometimes it can get messy to the point where it's best to just reset the window layout. You can do so with these steps.
